360newzealand.com

HOW IT WORKS

Oculus Go virtual reality headsets are the easy-to-use, consumer version of the Oculus Rift. They are the ideal sales tool when accompanied with 360 degree video and will captivate your audience.

We supply Oculus Go headsets to our clients only, for both sales and rental. We setup each headset for you, with the specified 360 degree imagery, and provide them with a case and basic training.

Pricing:
\$499 +gst to purchase (with setup, case and training)
\$149 +gst for one week rental (two headsets)

We are not an Oculus official reseller.
